Prepare for the NEET UG with practice tests in Gemini

Earlier this year, we partnered with leading education companies, including [The Princeton Review](#), [Physics Wallah](#) and [Careers360](#), to bring full-length, no-cost practice [SAT](#) and [JEE Main](#) tests to Gemini to help students study at their own pace.

Rolling out now, students can also prep for the [NEET UG](#) exam in the Gemini app. We have grounded practice tests in rigorously vetted high quality content from our partners, [Physics Wallah](#) and [Careers360](#), to build a best in class experience for learners coming to Gemini. This helps ensure that students are not just practicing — they're preparing with material that more closely resembles what they'll see on test day.

To try it out, just tell Gemini “I want to take a NEET mock exam.”

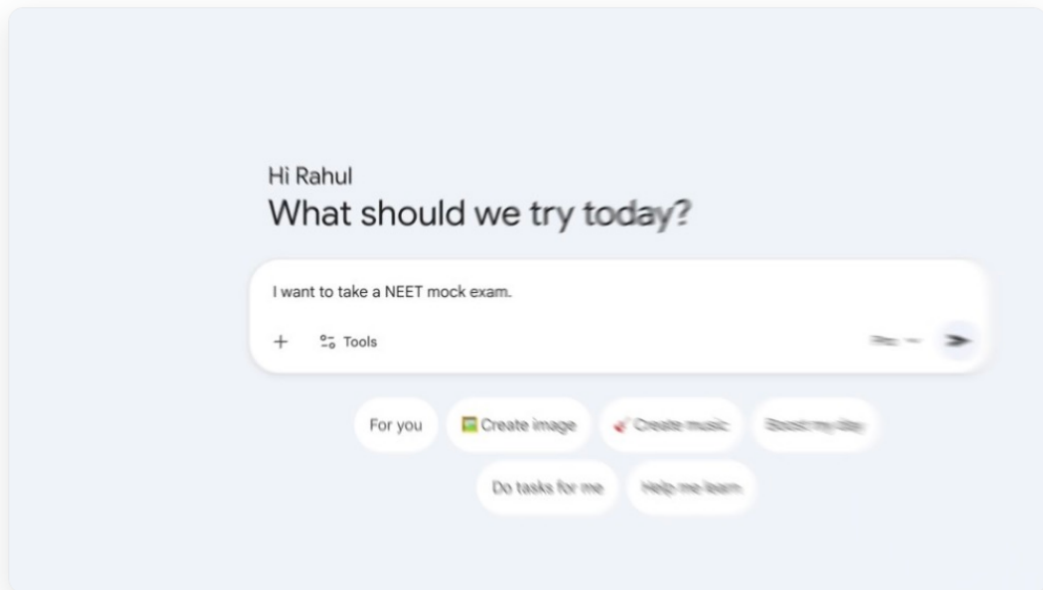

One prompt. **That's it.**
