

skill creator.

Claude Code can now build its own skills. Create, test, benchmark, and improve Agent Skills without writing code. Teach it once. Use it forever.

What Are Skills?

Reusable muscle memory that makes Claude Code smarter. Code Review, Doc Generator, Test Writer and more.

Consistent, Repeatable Output

Skills = Reusable muscle memory
that makes Claude Code smarter

Teach it once. Use it forever.

Before vs **With** Skill Creator

BEFORE

- ✗ Write SKILL.md by hand
- ✗ Guess if the description triggers
- ✗ No way to test if it works
- ✗ No way to measure improvement
- ✗ Breaks silently after updates

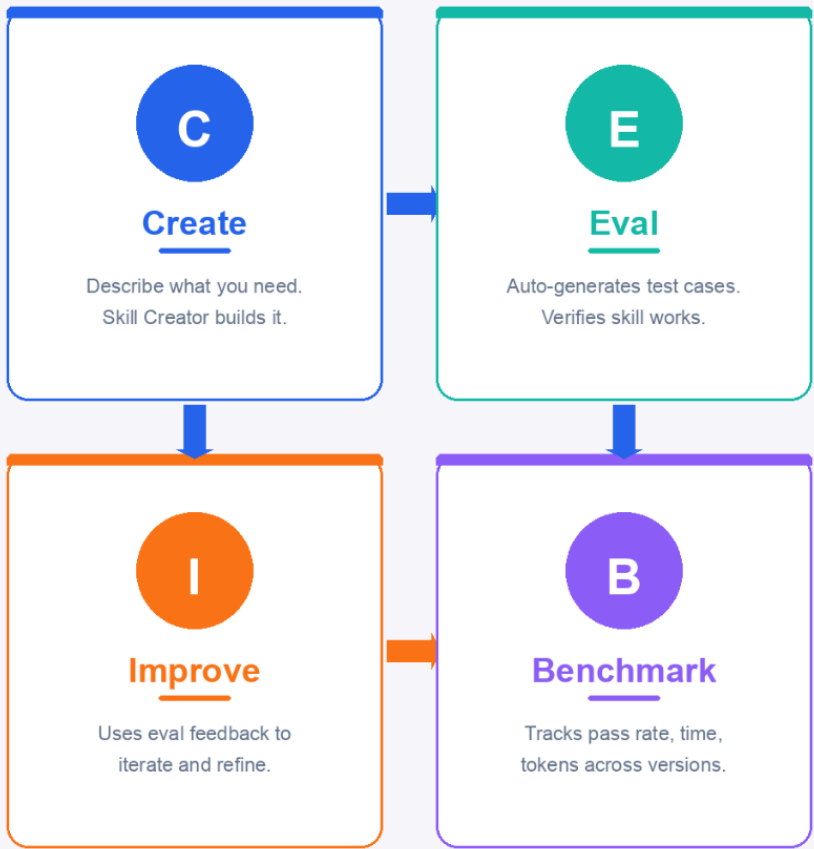

AFTER

- ✓ Describe what you want in English
- ✓ Auto-optimized trigger descriptions
- ✓ Evals verify every change
- ✓ Benchmarks track pass rate + tokens
- ✓ Re-run after model updates

The 4 Modes

Create, Eval, Benchmark, and Improve. A complete lifecycle for building skills.

How It Works

Describe what you need. Skill Creator writes SKILL.md, generates eval cases, runs them, and verifies.

```
Claude Code

> Create a skill that reviews
Python code for security issues

Creating skill...
Writing SKILL.md
Generating 5 eval cases
Running evals...
5/5 passed >>
Skill ready! >>
```

Describe

You describe
what you need

Generate

Skill Creator
writes SKILL.md

Test

Auto-generates
eval cases

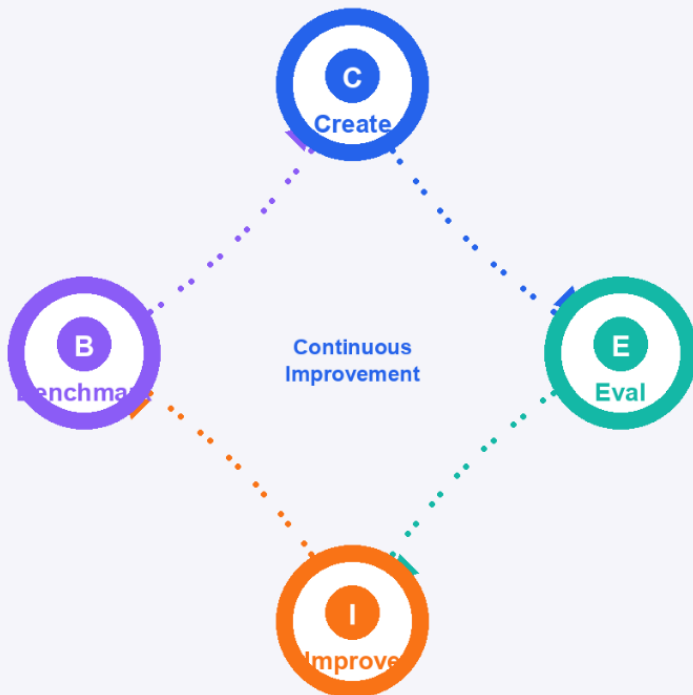

Verify

Runs evals and
confirms it works

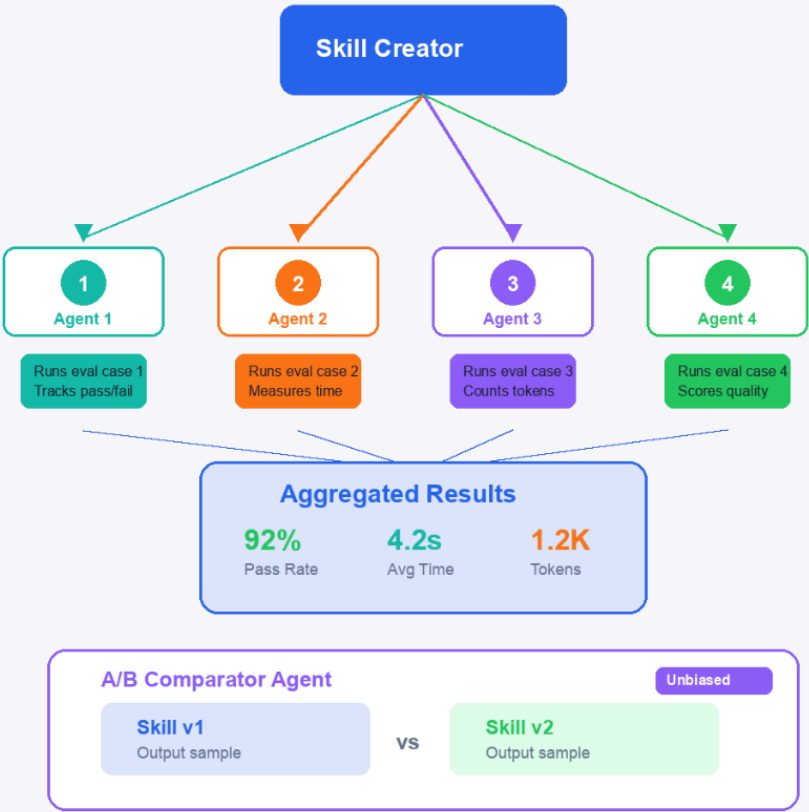

Continuous Improvement Loop

Create → Eval → Benchmark → Improve. A self-improving cycle that makes your skills better over time.

Multi-Agent Benchmarking

Skill Creator spawns parallel agents to run evals, aggregate results, and compare skill versions.

What Can You Build?

Security Reviewer, API Doc Generator, Commit Writer, Test Generator, Post Writer, PR Reviewer and more.

S

Security Reviewer

Scans code for
OWASP vulnerabilities

A

API Doc Generator

Generates docs from
source code comments

C

Commit Writer

Follows your team's
convention automatically

T

Test Generator

Writes tests for
untested functions

P

Post Writer

Creates LinkedIn posts
in your voice

R

PR Reviewer

Reviews PRs with
your team's standards

Get It in 30 Seconds

- Search 'skill-creator' in Extensions
- Or copy from GitHub
- Paste into .claude/skills/
- Type /skill-creator to start

```
# Option A: VS Code Extensions
> Extensions > Search 'skill-creator'
✓ Installed
# Option B: GitHub
$ cp -r skill-creator/
→ .claude/skills/skill-creator/
$ claude
> /skill-creator
✓ Skill Creator ready.
```

The best AI tools don't just follow instructions. They learn to get better at following them. Skill Creator brings that loop to Claude Code.
