

# Claude Code Can Now Build Its Own Skills

---

The new Skill Creator lets you create,  
test, benchmark, and improve  
Agent Skills without writing code

### Consistent, Repeatable Output

Skills = Reusable muscle memory  
that makes Claude Code smarter

Teach it once. Use it forever.

```
Claude Code

> Create a skill that reviews
Python code for security issues

Creating skill...
Writing SKILL.md
Generating 5 eval cases
Running evals...
5/5 passed >>
Skill ready! >>
```

# How to Get Skill Creator

## Option A: Extensions

Open Claude Code

Go to Extensions

Search 'skill-creator'

Click Install

Type /skill-creator

## Option B: GitHub

Go to [github.com/](https://github.com/anthropics/skills)

[anthropics/skills](https://github.com/anthropics/skills)

Copy skill-creator/ folder

Paste into `.claude/skills/`

Type /skill-creator

Both paths give you the same skill. Pick whichever is faster.

“

The best AI tools don't just follow  
instructions.

They learn to get better at following  
them.

Skill Creator brings that loop to  
Claude Code.
